

# Document Camera, LCD, & Laptop Set-Up in 3 Easy Steps

1. Connect the BLUE LCD Cord to the Input labeled "Computer" on the LCD Projector
2. Attach that blue cord to the Document Camera where it says "VGA Out or Output"
3. Connect the BLACK Document Camera cord to the Document camera where it says "INPUT" – attach your laptop dongle to the other side of this cable to your computer or laptop. Make sure that "Mirroring" is on in **System Preferences > Display > Arrangement**
